# Letter from Langshott

Dear Friends & Creative Thinkers,

My Dear friends and creative thinkers,

*“When I am inspired, I am letting the Higher Force  
act through me as its instrument”*

from My Working Creed

I have always wondered about Inspiration - the motivation and stimulation behind every great outcome. The thing to bear in mind is that we never singularly achieve our dreams or create anything extraordinarily unique.

Only when we resign to this truth, do our inner receptors open their arms to secretly usher in the esoteric force of Nature. Unknowingly we then become its proxy instruments as it infuses us with new wisdom and zest to go forth in the direction of our dreams. This force is not activated by any summons of the mind (ego), but by our steadfast devotion to our purpose and pure intentions.

When we are in the grips of this phenomenon, we call it *‘being in the zone’* – being so absorbed in our purpose that we are unaware of Nature at work or the majesty of what we are creating or achieving.

Whenever this happens to you, be glad that Nature has chosen to perform its miracle through you.

It can be during a simple chore like knitting a colourful shawl for a new born.

Look forward to being that instrument!
